DELEGATION

SPLASH PARK (a) Manning Playground Society, Chris Graw
(b) Playworks, Pat Zelenak
(c) Playworks, Ajid Williams

A drainage channel drawing of the Manning Millennium Spray Park was distributed to Council. Pat Zelenak with Playworks expressed his concerns in regards to the manner in which the previous subcontractor handled the repairs. Pat informed Council that the previous subcontractor has been relieved and all future reconstruction will be taken care of through Softline.

The recommended repair is a weeping tile system installed around the park to direct the water back to the drainage system. Pat ensured Council that this system would correct the drainage problem as the new concrete will have drains into the sewer, directly past the current overspray concrete. Playworks will bring the landscaping up to the correct level by bringing in topsoil and sod.

Chris Graw stated that The Manning Playground Society would like to see all of the concrete on the entire pad removed and replaced, as well as the readjustment of the water feature elevations so that the entire pad can flow as intended. The overspray zone should run to the drain as promised, at the elevation of the existing bathroom and gazebo pads. Chris requested that an extended warranty for a minimum of two full years after the date of completion be drafted in writing from Playworks.

Pat agreed to looking into replacing the concrete with Softline. He will have a response and schedule in writing by Friday September 22, 2017. An extended warranty of 2 years from the date of completion was agreed. A new warranty letter will be drafted and sent out next week.

ADJOURNMENT Deputy Mayor Smith adjourned the meeting at 6:01 PM.
